System requirements

- Supported models (software versions 2.1 and up):
 - Apple iPhone (1st Generation without UMTS)
 - Apple iPhone 3G (2nd Generation with UMTS)
 - Apple iPhone 3G S (3rd Generation with UMTS)
 - Apple iPod Touch (2nd Generation). Requires a headset with microphone (available separately).
- To purchase the software: Apple iTunes account
- To import dictations:
 - WLAN connection between iPhone and PC
 - DictaNet WF (version 9.06.10 and up) or DictaNet iPhone Sync (free download).

Sales

- DictaNet Mobile for iPhone is exclusively available from the Apple App Store.

Note

- According to Apple's specifications, dictation import through Apple iTunes and/or a cable connection is not possible at this time. Therefore WLAN is required for dictation import.
- Software version 2.1 and up is necessary for proper operation. This software may be updated at no cost using iTunes on the PC / Mac.
